

HCI & CG Assignment

NAME: RAZA E MUSTAFA

ROLL NO: 2K24/CSE/122

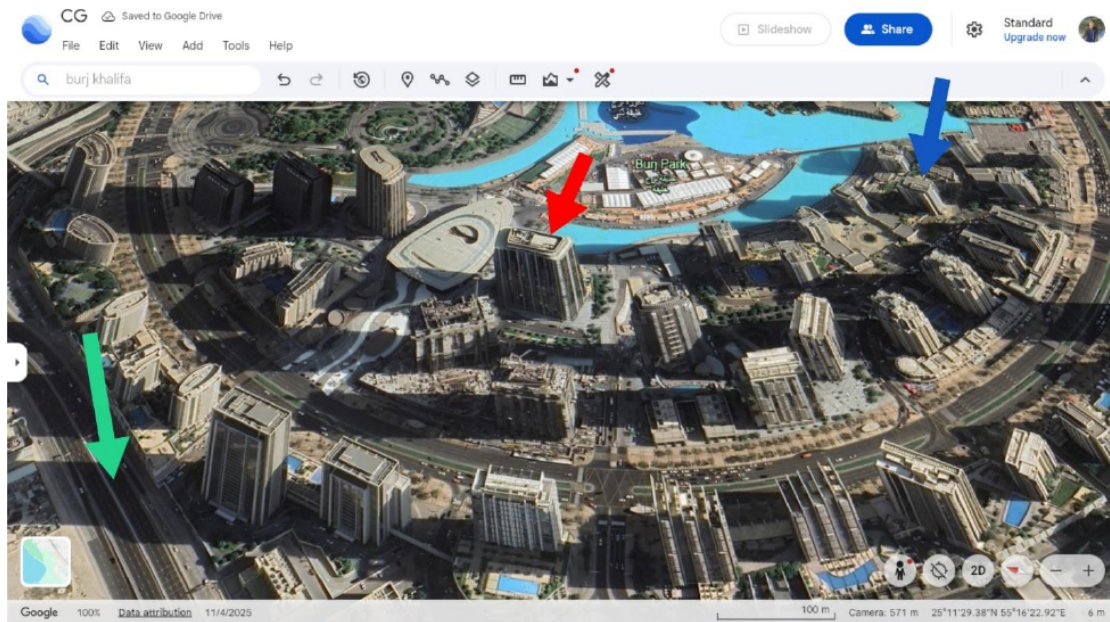

SUBJECT: HCI & COMPUTER GRAPHICS

SUBMITTED TO: SIR RAJESH KUMAR

Description:

1. **Search Bar:** Helps users quickly find a location.
2. **Navigation Controls:** Help users move and rotate the map view.
3. **Zoom controls:** Allow users to zoom in and out.

Description:

1. **3D Mesh Geometry:** Creates the shape and form of buildings and terrain.
2. **Perspective & Depth:** Creates the feeling of 3D space and distance.
3. **Lightning & Shadows:** Make the 3D environment look more realistic.

Reflection:

→ Good 3D graphics, lighting, and depth cues make Google Earth easier to understand and navigate. I would make the navigation controls clearer and easier to find so users can interact with the 3D map more easily.
